RAURIKI CHAROLAIS
Power Performance

Welcome to our 9th Annual Charolais Rising Two-Year-Old Bull Sale for 2026.

Firstly, it's great to see sheep and cattle farmers at last reaping the benefits of some strong financial returns over the past year. It is particularly pleasing to see breeders gaining well-deserved rewards. Beef returns have been unprecedented recently, and demand looks set to remain strong in the short to medium term—long may it continue.

We are very pleased with this year's sale bulls. Since spring, they have been performing at a high level. During spring, the bulls averaged 2.3 kg/day as a group, and now, as a sale line-up, they are the most even draft we have presented to date.

Our new sires have left an impressive mark on this year's bulls. Both Silverstream Padra and Silverstream Sheriff have stamped their influence strongly, not only on the sale bulls but also on the young heifers coming into the herd. Our homebred sires, Rauriki Ranson T36 and Rauriki Saar S63, have also produced some outstanding young bulls for this year's sale. All of this year's sires have bred sale bulls that are full of "power and performance."

This year we welcomed Joe Fountain from NZ Stud Stock to video and photograph the bulls. Joe brings a wealth of experience in filming cattle, and we're sure you will enjoy viewing the sale videos online.

We look forward to seeing everyone at the Bull Sale on Tuesday, 26th May, as well as those who can attend our Bull Walk on Tuesday, 12th May

from 11:00am - 2:00pm. If you are unable to make the Bull Walk, please contact us to arrange a time to view this year's Rauriki sale bulls.

Regards,
Simon, Wendy, George and Brianna

Conditions of Sale

RAURIKI CHAROLAIS
Power Performance

1. Rauriki Charolais Bull Sale will be conducted under the Terms and Conditions of the NZ Stock and Station Agents Assn.
2. The 2026 Rauriki Charolais Bull sale will be conducted as an On Farm Ring Sale. Although every care has been taken in ensuring the accuracy of the catalogue no responsibility is accepted by the Vendor, PGG Wrightson.
3. All intending Purchases must be registered prior to the Sale commencing. Nait numbers will need to be supplied.
4. All Bulls become the Purchasers Property at “the fall of the hammer”. Purchasers are advised to insure the Bulls at the time of purchase. Please be aware that FMG are the preferred insurer and are present to insure any bulls purchased.
5. Purchasing Rebate. A Purchasing Rebate of 6% will be paid to non-participating livestock companies, and recognised Independent Livestock agents. Arrangements must be made prior to the sale.
6. Delivery. All Bulls sold must be transported within 14 days of the sale at the Purchases responsibility.
7. The Vendor reserves the right to change the catalogue order.
8. Fertility. All sale bulls have Semen tested by Vet Services Dannevirke.
9. BVD. All sale bulls have been Blood Tested negative, and have been vaccinated twice.

HEALTH & SAFETY

Every effort will be taken by the Vendor and participating Livestock agencies on the Sale Day, Open day, and visits of Inspection to ensure the safety of buyers and visitors. We wish however to advise that while this sale is run under normal management conditions, certain dangers exist in relation to livestock and their environment. All visitors should take all care to ensure their personal safety.

EBVs EXPLAINED

CHAROLAIS BREEDERS OF NEW ZEALAND EBV's Explained

BREEDPLAN EBVs remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. BREEDPLAN information should always be used in conjunction with other selection criteria, including visual assessment.

A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT NEW ZEALAND CHAROLAIS SIRE

A BREEDPLAN Guide to Interpreting EBVs helps producers understand how to assess and compare the genetic merit of animals. Each EBV is reported in the units in which the measurements are taken (e.g. Weight EBVs are reported in kilograms). Please note that *only EBVs produced in the same BREEDPLAN analysis can be directly compared.*

When interpreting BREEDPLAN EBVs, producers may:

- 1. Compare to the level of genetic merit within the current population.**
Comparing against the current levels of genetic merit (*breed average and/or percentile bands*) allows you to understand where an animal ranks within the evaluated population. *EBV percentile graphs* can be found online for each animal and provide a visual representation of where an animal ranks for each trait.
- 2. Compare expected difference in progeny performance.**
Comparing the expected difference in outcome if two (or more) different sires are used in a herd gives you an understanding of what these EBVs mean in real terms.
- 3. Consider EBV accuracy.**
As a general rule, animals should be compared on EBVs regardless of accuracy. Most rising two year old bulls will have similar EBV accuracy levels; however, there may be some variation (particularly at multi-vendor sales) due to levels of performance recording and/or progeny if the bull was used as a yearling.

The searchable version of this catalogue can be found online www.charolais.net.nz/ or www.pivotdesign.co.nz/catalogues

NEW ZEALAND CHAROLAIS BREEDPLAN

Charolais Breeders New Zealand publishes the following BREEDPLAN EBVs.

Growth EBVs	Fertility & Birth EBVs	Carcase EBVs
Birth Weight	Scrotal Size	Carcase Weight
200 Day Growth	Gestation Length	Eye Muscle Area
400 Day Weight	Calving Ease Direct	Rib Fat
600 Day Weight	Calving Ease Daughters	Rump Fat
Milk (Maternal)		Retail Beef Yield
Mature Cow Weight		Intramuscular Fat

More information, including EBV descriptions and how to use them, can be found in the **Using & Understanding BREEDPLAN EBVs** booklet. Scan the QR code for more details.

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form from an existing FMG client, FMG provides insurance cover for bulls including theft, death caused by certain accidents, injury, disease, illness or humane destruction and permanent infertility, provided the bull's purchase price does not exceed \$50,000 +GST. Please contact an FMG representative if you are not an FMG client, or you purchased a bull for over \$50,000+GST.

What is the length of cover?

Your specified bull(s) can be insured for up to 12 months on FMG Premier Bull Sale Insurance.

What are the benefits?

✓ Infertility	Cover if your specified bull has to be intentionally slaughtered due to permanent infertility caused by certain accidents, disease, or illness.
✓ Theft or death	Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ Vet costs	Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

Apply

Please fill in this form as soon as you have purchased your new bull(s) and hand it to your FMG representative. This form **MUST** be fully completed for Premier Bull Sale Insurance.

BULL-PROOF

YOUR ASSETS AGAINST RURAL THEFT.

Theft and burglaries occur more often than you think, and the number of theft claims is increasing.

Every year FMG supports over 1,000 families impacted by theft and burglary. Alarmingly, 1 in 5 clients at rural addresses have been targeted more than once in the same year!

We think now's the time to put a lock on that trend. We have teamed up with NZ Police to create a Rural Crime Prevention Guide to help prevent theft and burglaries at your rural property – find out more at fmg.co.nz/rural-theft

We're here for the good of the country.
